

TRUTH IN SAVINGS DISCLOSURE

Coulee Cash Checking

PURPOSE AND EXPECTED USE OF ACCOUNT. This account is intended to be the accountholder's primary checking account in which payroll transactions and day-to-day spending activities are posted and settled. We expect the account's debit card to be used frequently throughout each month and for transaction amounts to reflect a wide dollar range. Small debit card transactions conducted on the same day at a single merchant and/or multiple transactions made during a condensed time period particularly near the end of a monthly qualification cycle are not considered normal, day-to-day spending behavior. These types of transactions appear to be conducted with the sole purpose of qualifying for the accounts rewards and thus, will be deemed inappropriate transactions and may not count towards earning the account rewards.

Coulee Bank reserves the right to determine if the account is being maintained for a purpose other than day-to-day, primary use. Accountholders who persist in making the debit card transactions in a calculated and limited fashion on order to meet their monthly qualifications and/or does not have consistent active use may have their accounts converted to a Free Checking account or closed altogether. We also reserve the right to convert the account to a different checking account if the account does not have consistent active use over three (3) consecutive qualification cycles.
